All should seek a professional's advice before diagnosing for themselves.

Echinacea Purpurea (seed) - Anti-bacterial; Anti-viral; Anti-fungal; Stimulates the immune system, promotes healing and strengthens the resistance to infections. Useful for all septic or infectious conditions. Stimulates certain white blood cells. Used for skin diseases, fungal infections, septicemia, gangrene, boils, abscesses, slow healing wounds, upper respiratory infections, and venereal diseases.

Echinacea Angustifolia (root) - Same as Echinacea Purpurea, although considered more potent by some practitioners. Works like an antibiotic, is an immune stimulant, lymphatic tonic, and anti-allergenic. Especially useful for reoccurring kidney infections, as well as more common conditions such as colds and flu during the winter months (when these are more prevalent). Both sources of Echinacea contain a variety of chemical compounds that have significant pharmacological functions. The rich content of polysaccharides and phytosterols in echinacea is what makes it a strong immune system stimulant. The vitamin and mineral content of Echinacea is vitamins A, C, E, iron, copper, sulfur and potassium. Echinacea works best if taken right at the onset of an infection in substantial doses and then tapered off. It can be used in higher quantities as a preventative during winter months. If using it to maintain the immune system, periodic use is believed to be more effective than continual usage. Echinacea has not exhibited any observed toxicity even in high dosages. Helps with acne, abscesses, bladder infections, boils, bronchitis, cancer, circulation, colds, congestion, digestion, ear infections, fevers, flu, immune deficiency, mouth sores, skin eruptions, syphilis, tumors, and wounds.

Astragalus (Membranaceus) - Stimulates the immune system, helps lower blood pressure and blood sugar levels. Assists poor circulation, low energy, allergies and frequent colds. Also for diabetes, kidney problems, prolapsed organs, and slow healing wounds. In Chinese medicine, astragalus is said to "tonify the spleen and blood" and was used for wasting and thirsting syndrome. It is used as a tonic for the lungs, for frequent colds and shortness of breath. Also used for chronic ulcerations and persistent external infections. Astragalus has been shown to possess several interesting pharmacological effects related to its stimulation of the immune system. Our immune system functions by recognizing and destroying foreign cells or toxins. Recognition and destruction are carried out by cells in the circulatory and lymphatic systems, which are produced in the bone marrow and lymphatic tissue (thymus, lymph nodes, spleen and tonsils). Helps with Aids, allergies, arthritis, lowers blood pressure, cancer, candida albicans, colds, diabetes, digestion, Epstein-Barr virus, fatigue, flu, heart disease, hepatitis, chronic infections, kidneys, Leukemia, Malaria, raises metabolism, spleen, stress, ulcers, Vaginitis and wounds.

***PROPRIETARY BLEND OF THE FOLLOWING:**

Peruvian Cat's Claw herb (Uncaria Tomentosa) - Is an alkaloid-rich plant. Alkaloids exhibit a wide range of pharmacological and biological activities in the human body. They are nitrogen-containing organic compounds which react with acids to form salts and are the basis of many medicines. Cat's Claw is a woody vine that comes from the Amazon Rain Forest in Peru. It is covered by thorns that look very much like the claws of a cat, thus how the herb got its name. This amazing herb is anti-inflammatory, anti-rheumatic, anti-viral, anti-tumor, anti-microbial. Also has cystostatic activities and is an antioxidant and an immune system enhancer. Today this plant has demonstrated the ability to treat viral infections, minimize inflammation and provide therapeutic action for a variety of stomach and bowel disorders including: Colitis, colon cancer, Chrohn's disease, constipation, diarrhea, gastritis, ulcers, parasites, diverticulitis, hemorrhoids, irritable bowel syndrome, and several types of cancer. Cat's Claw has many therapeutic applications and is effective for treating flu, sinus, ear and upper respiratory infections, canker sores, and infection associated with TMJ. Helps eliminate lower back pain associated with arthritis and also tired, sore muscles. Even more amazing is that all the above were accomplished within 48 hours after beginning use of the herb.

Red Clover (flowers) - Acts as an antibiotic, appetite suppressant, blood purifier and relaxant. Also is Anti-viral, Anti-fungal, Anti-microbial, Anti-neoplastic, Anti-spasmodic and Anti-tumor. Red Clover contains the trace element Molybdenum, that is recognized as a very essential nutrient in relatively minute quantities. This element found in Red Clover helps the system to discharge nitrogenous waste, aids in cleansing the system of impurities, and helps retard the spread of infection. Red Clover has been used for over 100 years in Europe and America to treat and prevent cancer, as a sedative for whooping cough, as a diuretic to treat gout, and as an expectorant. Red Clover is a highly nutritious plant that has provided, as a dependable source, many vital nutrients, vitamins and minerals and is a dependable source of nutritive supplements for all forms of degenerative diseases. Helps with acne, Aids, cancer, arthritis, athletes foot, bladder problems, boils, bronchitis, burns, childhood diseases, colds, constipation, coughs, eczema, and psoriasis.

Garlic odorless (bulb) - Detoxifies the body and protects against infection by enhancing the immune system. Garlic is Anti-bacterial, Anti-biotic, Anti-catarrhal, Anti-fungal, Anti-pyretic and Anti-viral. As a medicinal plant, Garlic can be used extensively for disease prevention. Also used for infections of all kinds. Nutritionally, Garlic has been found useful for some control in glucose tolerance for both hypoglycemia and hyperglycemia, possibly by helping to reduce insulin requirements. Helps reduce blood cholesterol, lower serum cholesterol and triglycerides, while also raising HDL levels in both healthy individuals and patients of coronary heart disease. It helps protect against narrowing of the arteries. Garlic is known to dissolve LDL (harmful) cholesterol while increasing HDL (beneficial) cholesterol levels. Helps with acne, allergies, arthritis, asthma, athletes foot, blood poisoning, high blood pressure, bronchitis, cancer, candida albicans, circulation, colds, coughs, colitis, cramps, diabetes, digestive disorders, ear infections, insomnia, promotes kidney function, parasites, pneumonia, prostate gland

DeFend(con't)...pp3

problems, rabies, respiratory congestion, sinus problems, staph and strep infections, ulcers, warts, and yeast infection.

The ingredients in *DeFend* have stood the test of time... The Native Americans used the same remedies as far back as 1769 and still do today.

DeFend™ *contains no starches, salt, artificial flavors, colors, waxes, preservatives, yeast, lactose, corn or wheat.*
